

Environmental policy

Alfa Quality Moving is an independent international moving company with offices in Jönköping, Stockholm, Gothenburg and Malmö. Our ambition is to be perceived as a serious company with firm growth and financial stability. With a view to achieve this we emphasize customer orientation, staying innovative and offer availability and personal service at a high level.

Alfa Quality Moving is strongly committed to provide moving services in accordance with sustainable development. For us this means;

- Enhancing environmental awareness, commitment and environmental knowledge among employees, suppliers, agents and customers
- Improving in efficiency and environmental adaptation of transports and use of packaging materials in connection with production of moving services
- Minimize risks for accidents related to production of our services
- Minimize the amount of non-recycled waste generated from our business

Through systematic and preventive work with continuous environmental improvements we will secure that our business fulfils environmental requirements from legislation, customers and business standards.
